Subject: Abortion Reporting Requirements --Folder 1025 Rough Draft from Michele Hanigsberg

Greetings:

Attached please find a draft of a bill making changes to Arizona's abortion reporting requirements. The changes largely are modeled after ones passed in Minnesota and Oklahoma after Arizona passed the initial law several years ago.

We would appreciate any thoughts you have from DHS's perspective regarding the requirements. The intro set has not yet been requested.

For the attached draft, we see these needed edits:

1. Page 1, lines 38 and 39 are not in caps or blue
2. Page 3, lines 18, 24 were changed to "of those women" from the draft's "of those numbers," but then was kept as "of those numbers" in line 32. Seems like it should be changed to "of those women" to keep it consistent.

Thanks!

Cathi

Of course. Sen. Barto also would like to be part of a meeting.

I am out all next week. I see the Intro set prep deadline for senate is Jan 22 the first day I am back.

I might be able to call in especially if we set for next Monday.

Perhaps I can work to set it up.

What does your Monday Jan 15 look like?

Of course. Sen. Barto also would like to be part of a meeting.

I am out all next week. I see the Intro set prep deadline for senate is Jan 22 the first day I am back.

I might be able to call in especially if we set for next Monday.

Perhaps I can work to set it up.

What does your Monday Jan 15 look like?

Greetings:

Attached please find a draft of a bill making changes to Arizona's abortion reporting requirements. The changes largely are modeled after ones passed in Minnesota and Oklahoma after Arizona passed the initial law several years ago.

We would appreciate any thoughts you have from DHS's perspective regarding the requirements. The intro set has not yet been requested.

For the attached draft, we see these needed edits:

1. Page 1, lines 38 and 39 are not in caps or blue
2. Page 3, lines 18, 24 were changed to "of those women" from the draft's "of those numbers," but then was kept as "of those numbers" in line 32. Seems like it should be changed to "of those women" to keep it consistent.

Thanks!

Can you let me know what the choices are currently when one fills out the form?

Cathi,

Couple of moving parts. I believe we are going to post a REVISED draft on Friday. But these are really just working drafts, these are the pre-work we like to do with the public and stakeholders to get the rules ready to go for the official process.

I also believe we will be sending a meeting notice for stakeholders to discuss the drafts, so its an opportunity to sit and discuss with our stakeholders additional changes or alternations your organization wants to see. This folds into your question, we haven't established a "closed record" date yet, so you have time and we are just starting the process. You can submit a comment anytime via E-mail to myself or by letter until we close the record. And that's a ways off.

Your second question, i believe the abortion reporting is the only instance in law where we ask such questions.

1) Re the abortion delivered alive regs, can you confirm for me the deadline for any comments? I think I now understand the highlighted parts. They look really good but we still may want to submit a comment from a doctor or two.

2) Re data reporting, can you think of any other medical procedure for which DHS gets data from the provider about the patient similar to asking why the patient is having the procedure? Or would the abortion reporting requirements be the only instance that happens in current law?

As always, thanks!

Subject: 1394 --my latest question

Hi Colby:

Current law states the abortion report must include the following information: "The reason for the abortion, including whether the abortion is elective or due to maternal or fetal health considerations."

Then on the abortion report form online, it has a drop-down menu "reason for termination" that includes only

Elective
Medical --mother
Medical --fetus anencephaly
Medical --fetus spina bifida
Medical -- fetus other

My question: Am I correct then that DHS only gets whether the abortion was elective or whether it was for one of those medical reasons?

Previously we had thought it was more a fill in the blank so DHS might be getting thousands of reasons why elective but not in a format that was reportable. Hence, that's why 1394 is structured to give several reasons.

Thanks --

Subject: Comments on survey

Hi –

I submitted comments. I did not see a place in which to identify the comments came from me.

Are the comments intended to be anonymous? Or do you get the name of the individual via the survey monkey tool?

Are the comments submitted by others available pursuant to a public information request?

Thanks!

Cathi,

I saw your comments this morning. Thank you very much for sending them. We will review and discuss them when determining how to change the March draft rules.

The comments are intended to be anonymous. In the past, we have sometimes posted the comments received, depending on the rulemaking. In this case, yours is the only comment about the March draft that we have received.

Thanks, again, for your input.
